

Game Design Document (GDD)

1. Game Overview

1.1 Game Title

The name of the game.

1.2 Genre

What genre/genres does the game represent?

1.3 Platform(s)

What platforms is the game available for. Why?

1.4 Target Audience

For marketing people, age groups, platforms, what kinds of people, etc. Why make this game for them, why choose them.

2. Core Concept

2.1 Elevator Pitch

Short summary of the game concept.

2.2 Key Features

The important features, that without them it would be a completely different game. Defines the game. Why make them, why we chose them. What purpose do they have?

3. Gameplay

3.1 Core Gameplay Loop

3.2 Objectives

What is the goal or goals of the game? What is the player trying to achieve?

3.3 Challenges

What stands in the way of achieving the objectives? What makes them challenging and why choose those challenges, how they fit into the game's theme.

3.4 Rewards

Why play the game? What do players get? Why? (Ex. level up, unlocks, score, story unfolds...)

4. MDA

4.1 Mechanics

The game rules, base components, every basic action, so on.

4.2 Dynamics

Created by mechanics. The run-time behaviour of them acting on inputs and cooperating with other mechanics.

4.3 Aesthetics

The emotional responses evoked in the player (visuals, narrative, challenge...)

5. Visuals

5.1 Art Style

Pictures of examples of the desired style. Color palette here.

5.2 Key Assets

The assets that define the game. Usually the player character, setting, etc.

6. MVP

What makes the game what it is. The bare minimum that gives it identity. Basically the assignment.
